More Opportunities for Language Practice!

The affordable SANAKO MP3 Recorder gives teachers and students the opportunity to extend language exposure by allowing students to take listening material home with them for additional review and practice.

Sanako MP3 recorders have an unbeatable edge on other players on the market, because SANAKO Media Assistant Lite is included with the MP3 Recorder. This provides students with a number of additional resources for language learning, such as bookmarks with titles, the ability to rewind, fast forward, recap, record, use variable speed playback, and play text synchronized files.

The MP3 Recorder is the ideal answer for institutions wishing to provide students with additional study time without having to invest in additional costly language learning systems. Students only need to load learning material on the MP3 Recorder, and they can practice listening and oral exercises at home or anywhere else!

Equality of Learning Opportunities

Lightweight Technology

Making SANAKO MP3 Recorders available to learners – either on loan or purchase - helps institutions ensure that they provide all students with equal access to language learning by way of portable and affordable technology.

Motivating Learning

Using the MP3 Recorder students can make recordings in the classroom and take material home for self-directed or supplemental language study. The ability to use recorded materials offers excellent opportunities for self-correction and ongoing self-assessment.

Every Day, Everywhere

Sold at an attractive price, the Sanako MP3 Recorder is ideal for use in educational institutions, as its robust design and clear menu structure make it suitable for everyday handling by students.

All the Features needed for Language Learning – and More!

Combine with other SANAKO Solutions!

With the SANAKO MP3 Recorder students can make use of the specialized learning resources in SANAKO Media Assistant outside the classroom. Student recordings made outside the classroom may be used in SANAKO language learning systems, including PC-based solutions.

Learning with Language Lab Content Anywhere

For example, SANAKO MP3 Recorder can be used by students using the SANAKO Lab 100 digital language lab to extend learning beyond the classroom.

The MP3 Recorder can be connected to the Lab 100 User Audio Panel to record language learning content, allowing students to practice listening and speaking activities, anywhere, anytime!

SANAKO Media Assistant offers Additional Learning Functions:

- Bookmarks with titles
- Rewind
- Fast forward recap
- Record
- Variable speed playback
- Play text synchronized files
