Introducing the **SANAKO Wireless IT Classroom**

The SANAKO Mobile Wireless IT Classroom brings technology-rich teaching to any subject, in virtually any location on the school premises. This unique mobile solution is constructed around a 24-position laptop cart that allows teachers to set up a PC classroom for technology-based teaching and learning within minutes - even ordinary classrooms with no IT facilities can become technology-supported learning centers! An integral element of the mobile computer classroom is the SANAKO Study 500 teaching software that combines the use of the Internet with a suite of essential management tools.

A Complete IT Teaching Solution

SANAKO Wireless IT Classroom is a quick and easy way to introduce or enhance existing technology-based teaching resources, as no dedicated space is required for IT teaching facilities. The wireless classroom is easy to set up in any location - institutions can maximize their investment in IT-based teaching by using this versatile mobile unit in different locations for teaching a variety of subjects. In institutions with wireless networks, no cables or wires are needed: a fully-equipped IT suite can be ready for teaching in minutes, without expensive or time-consuming hardware or infrastructure. The SANAKO Wireless Classroom is a complete solution that consists of a portable laptop cart, a wireless access point, the expandable SANAKO Study 500 teaching software and high-performance laptops*.

*) purchased separately, 11g WLAN adapter included

SANAKO Wireless IT Classroom

SANAKO Study 500

SANAKO Study 500 is a performance improvement software solution for teaching, combining the use of the Internet with a suite of essential management tools. Study 500 includes all the features and functions that are essential for effective and enjoyable teaching and learning, audio and text communication tools, web browser and program launch capabilities, and includes classroom management and control features.** Specially designed extension modules add to the functionality of this modern teaching tool.

Easy Transportation and Security

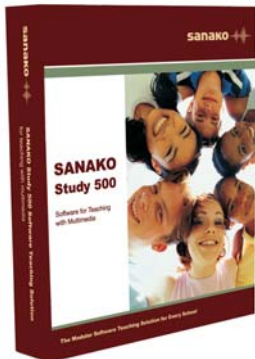

The safe storage of laptops is no longer an issue, as the front doors of the robust cart can be locked. SANAKO Wireless IT Classroom meets the needs of today's IT environment and is easy to transport from one location to another.

**) Some features may have some limitations in wireless networks. Please contact your local reseller for more information. The specially designed extension modules add to the functionality of this modern teaching tool.

Selected Features of the Laptop Cart

- Simple to adapt to different teaching situations
- Easily moved to different locations to create technology-enriched learning environments throughout the institution.
- Foot operated wheel locks for safety
- Convenient storage, re-charging and distribution facility all in one unit
- Flexible – teach using as many or as few laptops as needed
- Usable with most leading laptop brands
- Centralized power - only one cable needed
- Wireless 11g access point (WLAN) included
- Chargers, plugs and cables in a separate storage space behind a protective plate

The SANAKO Study 500 learning environment can be enhanced with extension modules to offer even more features and functions for motivating learning
